Preface

The Department of National Security and Strategy (DNSS) at the U.S. Army War College is responsible for a major course entitled War, National Policy & Strategy. In its 1999 directive for this course, the Department lists seven Strategy Formulation Guidelines. They are National Values, National Interests, Strategic Appraisal, National Policy, National Strategy, Military Strategy, and Risk Assessment. These guidelines formed the parameters for the development of the following bibliography.

With a few notable exceptions, the entries in this bibliography are dated 1995 to the present. They reflect Post Cold War thinking about strategy.

Items included in the bibliography are available in the U.S. Army War College Library collection or through the Internet. For the books and documents which are available in our collection, we have added our call numbers at the end of each entry. Please keep in mind that call numbers may vary from library to library. URL addresses which appear in the bibliography were all verified for accuracy, but there is always the possibility that some of them may have changed since the verification took place.

This bibliography is also available on the Internet through our Library's home page (<http://carlisle-www.army.mil/library/>).

For additional information, please contact the Research and Information Services Branch, U.S. Army War College Library by sending an e-mail message to libraryr@awc.carlisle.army.mil, or by phoning DSN 242-3660 or Commercial (717) 245-3660.
